

Idea number	Idea	Brief description of the idea	Comments by working group	Schedule	Cost estimate
1	Public park benches for Masala	Park benches should be placed along the walkways to improve the amenity of the residential centre and the spontaneous meeting of residents.	Meets the assessment criteria. The work stages include the acquisition of benches and their installation. The cost estimate for purchasing and installing one bench is EUR 4,000.	2024	40 000 €
2	Renovation of the Piennarpiha playground	I propose that the playground equipment at the Masala's Piennarpiha resident park be renovated and, to the extent that renovation is not sensible, replaced with new ones.	Meets the assessment criteria. The work stages include project planning and competitive tendering of the repair/reconstruction work.	2024-2025	50 000 €
3	Accessible playground for all children in the city centre	Accessible public playground. Wheelchair swing for Kirkkonummi.	Meets the assessment criteria. Purchase of a new wheelchair swing for Kirkkolaakso park.	2024	20 000 €
4	Repair of bicycle parking spots	There are still shortcomings in bicycle parking spots in a few places in Kirkkonummi. All schools should have a sufficient number of good bike parking spots to which the bike frame can be locked.	Meets the assessment criteria. The work stages include conducting a survey and building of bicycle parking spots.	2025	100 000 €
5	Improving the amenity and functionality of Veikkola's Koskentori Square	We propose a small sheltered terrace near the children's playground at the Veikkola business centre.	Meets the assessment criteria. A lightweight square canopy to protect from sun and rain.	2024	7 000 €
6	A blooming Kirkkonummi	Summer flowers and perennials will be planted in central locations in Kirkkonummi, such as roundabouts. Flowers will also be planted in columns.	Meets the assessment criteria. The cost estimate includes the purchase and planting of flowers.	2024	10 000 €
7	Welcome to Kirkkonummi sign for Ring Road III	A Welcome to Kirkkonummi sign will be installed at the Kirkkonummi border on Ring Road III for traffic coming from Espoo.	Meets the assessment criteria. The cost estimate includes the purchase of the sign, and earthworks and installation of the sign.	2024-2025	50 000 €

8	New Christmas lights for the town centre	The current Christmas lights in the city centre to be replaced.	Meets the assessment criteria. The Christmas lights in the town centre have recently been replaced. The cost estimate includes planning work, and the purchase and installation of the lights.	2024-2025	40 000 €
9	Benches for people with disabilities and elderly people.	Benches with armrests on both sides to be added the CityMarket - Finnsbacka hill trail.	Meets the assessment criteria. The cost estimate includes the purchase and installation of benches.	2024-2025	10 000 €
10	Lindal field lights turned on	Lindal has a sandy field with lights on during the skating season. The field could also be used for football at other times, for example, if the lights were on until 8 p.m. in the evening, using for example a dim switch.	Meets the assessment criteria.	2024-2025	5 000 €
11	Meadow flowers and insect hotels to be added to Kirkkolaaksonpuisto park.	Urban nature will be enlivened by establishing meadows and by adding insect hotels to roadsides and existing grass-dominated parks. Beehives could also be established near meadows.	Meets the assessment criteria in part: It is not possible to establish beehives because the municipality does not have professionals who could do so.	2024-2025	15 000 €
12	Blossoming restored Jokiniitty	I propose that Jokiniitty meadow be restored into a flowering meadow. Blossoming trees could also grow in the meadow. Paths and park benches would complement a walk through the flower-filled meadow.	Meets the assessment criteria.	2024-2025	15 000 €
13	Restoration of nature on municipal land	Nature restoration projects will be launched on land owned by the municipality, at the most suitable sites with the highest nature value.	Meets the assessment criteria.	2025	100 000 €

14	A shared park in the city centre	A public park open to all. Wild flowers, fruit trees, wild trees, space for spreading blankets and enjoying picnics, or a space for playing outdoor games with a group of people. Benches and tables for picnics or even for office work. There could also be entrepreneurs in the area.	Meets the assessment criteria in part. Planning of sales points is not possible.	2024-2025	50 000 €
15	Development of the Kirkkolaakso park	The grassland area in the Kirkkolaakso park could be utilised by adding trees and other vegetation. It would be a good idea to have an opportunity for volunteer work.	Meets the assessment criteria.	2024-2025	50 000 €
16	Let's plant trees in the centre of Kirkkonummi!	I propose that Kirkkonummi municipality take quick steps to start planting trees, especially along streets, and in squares and parks. Shadowing trees help prevent residential buildings from becoming overly hot, create a pleasant microclimate and are a more ecological method for cooling than electrical equipment.	Meets the assessment criteria.	2024-2025	50 000 €
17	A campfire site at Syväjärvi	A campfire site/Sámi hut will be built at Syväjärvi beach, which will be used throughout the year.	Meets the assessment criteria.	2024-2025	5 000 €
18	Sundsberg meadows to be transformed into park areas	The meadows near the BMX tracks will be made into park areas for all outdoor recreation. Walking trails, benches and trees.	Meets the assessment criteria.	2024-2025	30 000 €

19	Shady spots along the Jolkbynjoki river's banks	Willows etc. will be planted along the banks of Jolkbynjoki river to add shade to the water and food for fish. The planted trees do not have to cover the entire river, but are designed according to the direction of the rays of the sun.	Meets the assessment criteria.	2024-2025	20 000 €
20	A rental boat to the seaside.	In Helsinki, an agreement was made with a boat taxi so that city residents could enjoy the islands. This would be a great idea to implement here as well: it would bring maritime Kirkkonummi a little closer.	Meets voting criteria. The implementation of the idea will require negotiation with the harbours. The boat could run between Kantvik and Porkkala.		50 000 €
21	Hedges for the Vernerintie and Masalantie intersection	Vegetation such as hedges could be planted on the lot located at the intersection of Vernerintie and Masalantie in Masala.	Meets the assessment criteria.	2024	5 000 €
22	A sun and rain shelter in Kirkkolaakso park	My proposal is a lightweight pavilion in the Kirkkolaakso park, which would serve as a rain shelter and have seats. The pavilion would have a white roof and no walls. Low growing deciduous trees with dense, well-shading branches should be planted nearby.	Meets the assessment criteria.	2024-2025	20 000 €
23	Community garden	A community garden where residents can grow their own vegetables and herbs will be established. It will promote a sustainable lifestyle and brings residents together.	Meets the assessment criteria. Cost estimates include planning work and preparation of the area.	2025	20 000 €
24	Update the skateboarding park in Veikkola	The skateboarding park would be upgraded to be more versatile and larger.	Meets the assessment criteria.		30 000 €

25	Needle bins for Kirkkonummi	Needle bins are litter bins for the safe and ecological disposal of drug syringes and these have clear signs indicating their intended use. Needle bins should be located in places such as train stations and parks.	Meets the assessment criteria. Participatory budgeting will allow us to install six litter bins in the town centre, and in Gesterby, Tolsa, Jorvas, Heikkilä and Masala.	2024-2025	5 000 €
26	Improvements to the facilities on Linlo island, which is an outdoor recreation area.	I propose that the current barbecue shelters on Linlo island be replaced with new ones, especially the southernmost shelter. Furthermore clean dry toilets. A few wooden stairs along the trail on the western edge of the island have come to the end of their service life. The new ones could be made of metal.	Meets the assessment criteria. This appropriation could cover the cost of building the southern grill shelter and stairs.	2024-2025	100 000 €
27	Additions to outdoor gyms in Kantvik and the centre of Kirkkonummi.	An additional weight will be purchased for the bench press machine at the Kantvik outdoor gym. Additional weight for the bench press machine and foot squat machine in the centre's new outdoor gym.	Meets the assessment criteria. It is possible to obtain additional weights.	2024-2025	10 000 €
28	Rest bench on Vesitorninmäki hill	Vesitorninmäki hill can now be accessed by pedestrians and cyclists. I propose that a bench + table combination be purchased for the top of Vesitorninmäki hill.	Meets the assessment criteria. The cost estimate includes planning, purchase of furniture and building.	2024	2 500 €

29	Group walks	Free walking for those in good basic condition throughout the year, departure from the centre of town, for example, with the purpose of walking/moving and getting to know others at the same time. At the end of the walk, those who so wish can go for coffee for example at the library.	Meets the assessment criteria. Recreational services have already implemented cultural walks, and seniorpaku offers free guided activities. The cost estimate includes salary / guiding costs.	2024 - 2025	30 000 €
30	Pump track for cycling in Veikkola	The Veikkola pump track for cycling will increase physical activity opportunities for local children and young people	Meets the assessment criteria. Can be implemented with element/composite solutions. The cost of building a fixed track will exceed the OSBU budget. The work stages include finding a site, planning and building.	2024-2025	40 000 €
31	Tennis court in Veikkola	A tennis court in Veikkola, where everyone can play free of charge or for a small reservation fee.	Meets the assessment criteria. Can be implemented if a suitable site is found in Veikkola.	2024-2025	80 000 €
32	Renovation of benches at Veikkola athletics field	The benches in the stands at Veikkola's athletics field will be renewed.	Meets the assessment criteria. The work stages include planning, purchase of furniture, and implementation.	2025	60 000 €
33	Lending of rowing boats on public beaches	Rowing boats will be purchased for Kirkkonummi public beaches for the purpose of short-term loans (a few hours/time).	Meets the assessment criteria in part. Lending rowing boats is not a basic municipal service. The cost estimate includes 5-10 row boats and the introduction of the reservation system.	2025	20 000 €
34	Public skating sessions	I would like either weekly ice skating hours open to all families at the Varuboden Arena or for an artificial ice rink to be opened.	Meets the assessment criteria in part. An artificial ice rink would exceed the budget and schedule. The cost estimate includes agreeing on and purchasing time at the arena. Combined Ideas: "Public skating hours" and "skating hours at Varuboden Arena".	Winter season 2024-2025	30 000 €
35	Grill shelter or shelters for Meiko	Shelters for the existing campfire sites in Meiko outdoor recreation area	Meets the assessment criteria. The cost estimate includes planning, purchase of furniture and building.	2025	60 000 €

36	More ice swimming spots	Winter swimming areas with dressing rooms. Could be implemented in cooperation with a sports/outdoor club that could take responsibility for managing cleanliness.	Meets the assessment criteria. The cost estimates include pumps for keeping ice open, mobile dressing rooms, a pier, heat mats and preparation of a safety document. Ice swimming spots should be located at existing beaches.	2025	80 000 €
37	Renovation of the Frami basketball court's surface	The idea will help safeguard the players' health as large holes in the asphalt will be repaired.	Meets the assessment criteria. The cost estimate includes surfacing and painting (court size approx. 420 m2, surfacing will cost EUR 30/m2 = EUR 12,600). + painting).	2024	15 000 €
38	Children's running or athletics competitions in the town centre	The municipality could organise a free-of-charge running competition for children in the summer. There could be different classes for children by age. Similarly, a playful athletics competition or a physical activity day for families with children would be a nice event. This could include a group warm-up/programme/some performers, and then families could try different athletics equipment themselves.	Meets the assessment criteria in part. Can be implemented in cooperation with local clubs. The cost estimate includes support for costs and other costs of arranging the event. Requires cooperation from local clubs.	2024 or 2025	2 000 €
39	Kirkkonummi Day for everybody	I propose that transport be arranged from different parts of the municipality for the Kirkkonummi Day so that everyone can participate.	Meets the assessment criteria.	2024-2025	10 000 €
40	Graffiti wall for young people and children in Masala	Permitted graffiti walls for young people and children.	Meets the assessment criteria. The work stages include determining a site for the wall and installing the wall.	2024 - 2025	15 000 €

41	Accessible ice swimming and sauna location	An ice swimming and sauna site that would be open to all Kirkkonummi residents for a reasonable fee. The site would include the opportunity go to the sauna, go ice swimming, and there would be shower and dressing facilities. It would also be important to have easy access to ice swimming and sauna spot with public transport.	Meets the assessment criteria in part. Requires a "container sauna" provided by an external service provider. A fixed sauna building would exceed the budget. The cost estimate includes planning work, strengthening of the soil and installation of electrical lines.	on 2024-2025	15 000 €
42	Free-of-charge happy hour at a swimming hall	Swimming refreshes both the body and the mind and works for all from junior to senior. In addition, it is a sport that is suited for everyone. For this reason, I propose the allocation of EUR 25,000 in participatory budgeting money for this.	Meets the assessment criteria in part. Happy hour swimming services cannot be implemented as such. Cost estimates can be used to offer free visits. The implementation method will be specified if the idea progresses to implementation.	on 2024-2025	25 000 €
43	Renovation of the Vuorenmäki schoolyard	A more stimulating and functional recess environment in the schoolyard at Vuorenmäki school. Swings - spider swing, tyre swings. A larger recess area - restoration of the forest area next to the stands. Renovation of the existing climbing equipment and the addition of a new piece of climbing equipment, more monkey bars at different heights, replace the basketball basket, sandbox in the yard used by smaller children. A sheltered area in the schoolyard would be nice.	Meets the assessment criteria. The cost estimate includes planning work, purchase of equipment and installation work. Combined idea: "Well-being of young people /children"	2024-2025	100 000 €

44	More school materials Bobäck skola	Bobäcks school needs more recess equipment and climbing equipment. It would be a good idea to surface the upper courtyard at Bobäcks school with asphalt so that basketball equipment could be installed and the sports field could be surfaced with grass.	Meets the assessment criteria. The cost estimate includes planning work, purchase of equipment and installation work. Combined idea: "Well-being of young people /children"	2024-2025	100 000 €
45	Renovation of Kolsari day-care centre yard so it promotes physical activity	Update of the Kolsari day-care centre yard and outdoor equipment: boxing bags, more balls, kick bikes, a grassy area where children could play football and football goals, an intact climbing frame, gymnastic rings, a spider swing, a playhouse, a trampoline, and trees and shrubs for climbing and hiding	Meets the assessment criteria. The cost estimate includes planning work, renovation of the yard and update of fixed equipment. Purchase of non-fixed equipment does not meet the assessment criteria.	2024-2025	100 000 €
46	A physically active Kirkkonummi every day	Purchase outdoor exercise lessons from local entrepreneurs every evening of the year in Kirkkonummi parks/sports centres – a variable programme where residents of different ages can come at a low threshold.	Meets the assessment criteria in part. The implementation will require the use of an external service provider. The work stages include competitive tendering and coordination of the service. The cost estimate includes coordination, pay and instructor costs.	2025	50 000 €
47	Renovation of marked outdoor trails and nature trails	Marked outdoor trails and nature trails must be constructed to increase the physical activity and well-being of residents.	Meets the assessment criteria in part. This idea did not have a mention of a location/region in more detail, so we propose the renovation of existing trails and their markings.	2025	30 000 €

48	Masala sawdust running track, update	The base of the Masala sawdust running track has deteriorated due to runoff waters and the surface is in poor shape. Quite near-by next to the hill, there is an undergrowth-free coniferous area of 100m ² in size where a picnic table and benches could easily be placed to promote local hiking. A few benches where people can rest/meet one another could be installed along the sawdust running track.	Meets the assessment criteria in part. Updating the whole running track exceeds the budget. The part that would up be updated, will be specified if the idea implemented.	2025	100 000 €
49	Family frolic - family exercise event	A low-threshold physical activity event intended for families provided free-of-charge or small participation fee. In practice, a two-hour event has usually been held on Sunday mornings, in cooperation with the municipality and organisations. A few instructors are usually present at the event.	Meets the assessment criteria in part. Implementation will require the use of an external partner, such as an organisation. The event would be organised six times between 2024 and 2025. The cost estimate includes salary, instructor and coordination costs.	2025	30 000 €
50	A winter swimming area at Luoma beach (Hvitträsk)	A winter swimming area could be arranged for the Luoma beach at Hvitträsk.	Meets the assessment criteria. The cost estimate includes safety plans, heated changing room containers, a pier that can be used in winter, heated mats, lighting, pumps and winter maintenance.	winter season 2024-2025	60 000 €

51	Centre for well-being and physical activity	In addition to individual park bench purchases, the implementation of a well-being and sports centre in the town centre by commissioning an independent study and scenarios, bringing together local clubs to create a centre like Joo.Areena that is sustainably accessible, innovatively implemented, inclusive. Also creates life in areas around the centre, station, schools, educational institutions and library in the evenings.	Meets the assessment criteria. The cost estimate includes salary/purchasing costs.	2025	100 000 €
52	Water exercise screens	Water exercise programmes for Kirkkonummi swimming halls via a screen!	Meets the assessment criteria. The swimming hall already has one water exercise screen (32"). The cost estimate includes the annual rent for the screen.	2024 - 2025	3 000 €
53	A leg press for the gym at the swimming hall	The rotation device at the swimming hall gym could be replaced with a leg press.	Meets the assessment criteria. Can be implemented if one piece of equipment is removed from the gym (at present there is no space for any additional equipment).	2024 - 2025	5 000 €
54	Promotion of sustainable mobility	Money would be used to improve cycling routes, to install electric bike charging points or to promote public transport in the municipality.	Meets the assessment criteria. The cost estimate includes planning, two charging columns, a charging shelter and implementation.	2025	60 000 €
55	August film evenings	Free screenings of films at a suitable place, such as the marketplace or sports park.	Meets the assessment criteria. The cost estimate includes three film screenings in August 2024. The start time for the screenings in August would be 9 p.m.	In summer 2024	9 000 €

56	Kirkkonummi-themed mural	A mural in a suitable place. The theme of the mural would be a subject that best depicts what Kirkkonummi and living in Kirkkonummi is. General competition or competition subject to invitation. Municipal residents will decide on the subject of the mural with a vote.	Meets the assessment criteria. The size of the wall to be painted will affect the cost estimate.	In summer 2024 or 2025	50 000 €
57	Movies and physical activity for children at Fyyri	Would it be possible to have free films for children at Fyyri during the day at weekends, e.g. for children aged 3-7? And free exercise/physical activity tracks?	Meets the assessment criteria. The cost estimate includes 10 exercise and film sessions held between 9 a.m. and 3 p.m. on Saturdays in the Mörne Hall (if the booking situation allows). The cost estimate includes an employee's salary for ten days and costs related to dissemination of information and marketing.	2024-2025	4 000 €
58	Welcome sign and coat of arms made of flowers	Flowers planted in the shape and colour of the Kirkkonummi coat of arms and a Welcome to Kirkkonummi sign.	Meets the assessment criteria.	2024	6 000 €
59	History/Nature Trail, Munkinpolku Trail	Within the framework of the idea, the Munkinpolku trail will be improved so that some of it will also be made suitable for people with impaired mobility, and an easier to travel route will be arranged for going to the top of the hill. Railing structures to the northern parts of the trail. The current modest benches made by volunteers would be replaced with proper ones.	Meets the assessment criteria. It is not possible to make the trail accessible. The cost estimate includes design work, 2-3 benches, a litter bin and installation work.	2024-2025	6 000 €

60	Welcome sign and miniature model of the lighthouse	A miniature model of the large Rönnskär/Kallbådan lighthouse made of wood or concrete, All of these would include Welcome to Kirkkonummi! signs:)	Meets the assessment criteria.	2024	10 000 €
61	Welcome sign and plants to spell out the name Kirkkonummi.	Kirkkonummi text with metal moulds in which flowers will be planted and a Welcome to Kirkkonummi sign.	Meets the assessment criteria.	2024	4 000 €
62	Solar panels	Solar panels for municipal buildings to save energy.	Meets the assessment criteria. This appropriation may be used for the purchase of solar panels or, for example, shares in a company that produces or promotes renewable energy. Energy efficiency projects are carried out continuously and the most efficient means are introduced.	2024-2025	100 000 €
63	Party for everyone	The idea is a combination of a few event ideas with wishes for a common celebration for the inhabitants. The assessment team's proposition is a Christmas party for all inhabitants, who will participate in the planning and execution of the event together with local organisations. The event could include music, culture and nice activities	Meets the assessment criteria. The implementation of the event will require the involvement of volunteers to help with planning and execution (inhabitants and organisations).	2024-2025	50 000 €
64	Dinner in the open air in Kirkkonummi	A communal picnic with music in the centre of Kirkkonummi.	Meets the assessment criteria in part. Requires the participation of volunteers for planning and organising.	2024-2025	10 000 €
